the club and its members hopefully this will be
rectified now.

Any offers for Editor ????????????????

Projects on the GO

Ablution Block.

If you turned up at the club this last few weeks
you would of seen that the toilet block is out of
order. Not because it does not work but we have
had the floor sandblasted and now it is in the
process of getting a new coat. (In a non-Slip and
a nice colour)

Next is the replacement of the Toilets all the same
colour and style. Some of our members have
donated them. Thank you all

Then it's the walls. We have the wallboard
donated by an AONC Member When the walls
are done the new showers will be installed at the
same time.

Not bad eh!! Thanks all for your work and
donations.

TREE PLANTING

This is still going along well. We have potted up some two hundred at the moment but have eight hundred to go. Thanks Martin for the Plastic Bags So if your on the grounds spend a few minutes and bag a couple it all helps. We are going to sell them as Living Christmas Trees later in the year.

Welcome New Members

Dave / Lynn. Hope you enjoy your time with us.

Any offers for the job of editor

Its not too hard a job. This from a non-Nerd type of person

For all those people who have said in the past that we are dying (well we are still here) all I can say is "watch this space" for a new rejuvenated club and membership.
